

Amendments to the Specification:

Please replace paragraph [0050] with the following rewritten paragraph:

[0050] Session ID locator 320 may next compute the fraction of links that change by comparing the four in-host links 702 to the four in-host links 712 (act 604). In this example, the first three of the four links in sets ~~702~~ 701 and ~~712~~ 710 contain session identifiers that change between sets ~~702~~ 701 and ~~712~~ 710. The last link in sets ~~702~~ 701 and ~~712~~ 710 does not change between sets. Accordingly, three out of the four links (75%) change between links ~~702~~ 701 and ~~712~~ 710.
